

WORKSHOP PROGRAMME

Workshops will be held on **Thursday, February 15**, for registered participants only.

Reservation is requested.

Left places can be booked at the "New Registration" desk in the registration area.

Coordinator: Phil Clements (USA)

Workshops will be repeated twice in the following times:

From 13:00 to 14:30 first slot

From 15:00 to 16:30 second slot

A coffee break will be served in the foyer from 14:30 to 15:00

HOW TO USE NAILFOLD CAPILLAROSCOPY IN SSC

Room E1

Convenor: M Cutolo (I)

13:00 and 15:00

Why capillaroscopy in SSC is fundamental for clinical/basic research and for the early diagnosis

M Cutolo (I)

13:15 and 15:15

How to distinguish the pathological capillaroscopic patterns from a normal pattern and role in prediction of clinical complications in SSC

V Smith (B)

13:30 and 15:30

How to select and when to employ the capillaroscopic device

A Sulli (I)

13:40 and 15:40

Practical session with patients

NEW INSIGHTS ON THE APPLICATIONS OF ULTRASOUND IN UNDERSTANDING AND MANAGING SSC

Room F1

Convenor: E Naredo (E)

13:00 and 15:00

Welcome

Clinical case

E Naredo (E)

13:05 and 15:05

Anatomic basis and ultrasound imaging of synovium and tendon involvement in SSC

I Möller (E)

13:15 and 15:15

Workshop on joints and tendons in SSC

I Möller (E), M Micu (RO), D Botello (E), E Naredo (E)

LOCALIZED SCLERODERMA

Room H1

**Convenors: R Knobler (A), T Krieg (D), A Taieb (F),
K Takehara (J)**

13:00 and 15:00

Introduction

T Krieg (D)

13:05 and 15:05

Classification of localized scleroderma

P Moinzadeh (D)

13:20 and 15:20

The Japanese network - an update

T Makino (J)

13:30 and 15:30

The natural course of localized scleroderma

J Mertens (NL)

13:40 and 15:40

Discussion

13:50 and 15:50

Topical and systemic therapy

A Taieb (F)

THURSDAY, FEBRUARY 15

14:05 and 16:05
UV-Therapy
R Knobler (A)

14:15 and 16:15
Discussion

14:25 and 16:25
Conclusion
K Takehara (J)

HOW TO EXPLORE THE VASCULAR SYSTEM **Room F2**
Convenor: J Constans (F)

13:00 and 15:00
Introduction
P Carpentier (F), J Constans (F)

13:05 and 15:05
Interactive clinical cases
Clinical case I: How to predict a digit ulcer?
S Blaise (F), C Boulon (F)

Clinical case II: Vascular exploration of a sclerodermic patient with digit ulcer
I Lazareth (F)

Clinical case III: lower limb ulcer in a sclerodermic patient
P Senet (F)

14:05 and 16:05
Manipulation of devices
Wide field capillaroscopy
Laser Doppler
Digital pressure measurement
Transcutaneous oxygen pressure measurement

The workshop is supported by the Societe Française de Medecine Vasculaire and Societe Francaise de Microcirculation

DIGITAL ULCER MANAGEMENT **Room G1**
Convenor: M Matucci-Cerinic (I)

13:00 and 15:00
The classification and the therapeutic strategy of DU in SSc
M Matucci-Cerinic (I)

13:25 and 15:25
The assessment of the ulcer (characteristics of the wound, infections, gangrene) in SSc
D Giuggioli (I)

13:50 and 15:50
The topical treatment of digital ulcerations with video projected procedures
C Bruni (I)

Video will be shown and the following points will be discussed in interactive fashion:

- what to look at
- how to wash/clean
- which kind of anesthesia
- how to perform debridement
- how to choose the dressing and covering.

SKIN BIOPSY- A PRACTICAL WORKSHOP **Room G2**
Convenors: A Ramming (D), R Dobrota (CH)

SKIN SCORING – A PRACTICAL WORKSHOP **Room D1**
Convenors: L Czirjak (H), D Furst (USA)

DETERMINING PROGRESSION OF SSC-ILD **Room H2**
Convenor: D Tashkin (USA), E Volkmann (USA)

Important!
The following workshop will be held from 15:00 to 16:30 only at the **Hotel Pullman - Room Montaigne A**

SKIN SCORE IN JUVENILE SSC **Hotel Pullman Room Montaigne A**

Convenors: D Khanna (USA), I Foeldvari (D)
The workshop is supported by Bayer AG
