

How can we improve communication between physicians and patients with SSc?

Date:
Saturday 16 March 2024
11:30–12:00 (CET)

Venue:
Prague Congress Center
Prague, Czech Republic

Life forward

A faculty of expert healthcare professionals and patient representatives will discuss key considerations for improving the care of patients with systemic sclerosis-associated interstitial lung disease, including insights into effective consultation styles and ways to bridge the communication gap between physicians and patients.

Please find details of the roundtable discussion in the agenda below.

Agenda

Co-chairs: Masataka Kuwana and Dinesh Khanna

11:30–11:35 (CET)	Welcome and introduction: What research tells us about the communication needs of patients with SSc	Masataka Kuwana
11:35–11:55 (CET)	Sharing thoughts across the communication gap: What do patients want to know, and how do they want to hear it?	Christopher Denton, Dinesh Khanna, Masataka Kuwana, Sue Farrington and Ilaria Galetti
11:55–12:00 (CET)	Conclusion and future perspectives: Working together towards the ideal consultation	Dinesh Khanna, Sue Farrington and Ilaria Galetti
